PROCTOR KNOTT RELIEVED.

How a Good Friend Took a Heavy Load Off His Conscience.

Ex-Governor Proctor Knott and a distinguished professional gentleman of Danville were discussing the claims of Sampson and Schley to the credit of smothering Cervera at Santiago.

The professional gentleman took the ground that all the honor of that memorable conflict belonged to Admiral Sampson, and was inclined to ignore entirely Commodore Schley's part in the affair.

The Governor listened until his companion was finished, and then with that characteristic twinkle in his eye, said:

"My dear sir, it is exceedingly gratifying to me to hear you take the position you have taken. It is like a balm to my conscience and settles a point that has worried me many a day."

"I was walking through the woods with a boy friend of mine when we saw a rabbit run into a sinkhole. We went around the hole and I told the boy to keep watch while I went to get some fire to smoke the rabbit. When I returned the boy had the rabbit. I promptly took it away from him, claiming that it belonged to me, because I had told him to catch him if he came out."

"That was over fifty years ago, and you are the first man who has ever agreed with me that the rabbit was mine. I feel now that I was right in taking it and my conscience is at rest."

CLARENCE MATTHEWS, P. M.

DIED OF BURNS.

Dr. Alex Shaw of Quincy—A Recluse, and a Unique Character.

The Portsmouth Blade gives a sketch of Dr. Alex Shaw of Quincy, who died Monday morning from the effects of terrible burns he received Sunday night by falling into the fire.

He was 54 years old, and was noted as a unique and original character. He at one time cultivated a vast profusion of flowers, tropical fruits and shrubbery, and his residence was an interesting place to visit.

Dr. Shaw was of English birth. He came to this country nearly fifty years ago, and made his home for a time at South Portsmouth.

He was an ardent Democrat, and shortly after the Lincoln campaign he made a law that he would never go back to England until a Democratic President was elected. He kept his vow, and did not return to his former home until Cleveland was elected.

He was a brother-in-law of Captain Samuel Brown of the C. and O. Ferry at Portsmouth, and for a time owned an interest in the ferry.

He was never married, and did his own housekeeping, and lived entirely alone. He was called a "hermit," but that definition applied but loosely. Visitors were always welcome, and he did business among his fellowmen just as any other man would. He possessed some medical skill, and had cured several bad cases of St. Vitus dance in Portsmouth.

He was a tall man, with white hair and beard and a clear, intelligent complexion, and was supposed to have considerable wealth.

AT THERE! What's the matter with Editor DULY of The Flamingburg Times-Democrat? Every time Maysville had a Fair, and because the Managers permitted her selling, gaming and a lot of things to catch success and cash, Br'er D. was wont to hop onto the corners with both feet and then jump up and down until he fairly stamped it into a jelly. Well, they had a Fair last week up at Bowling, in Editor DULY's own county, and it is even said that he was present on one or more days. The LEDGER is reliably informed that what was to be seen on the grounds in broad daylight couldn't have been found in the dark of the night. There was a Wheel of Fortune, Ball Throwing, Chuck-a-luck, and, oh horrors! a couple of genuine Coocoo-coocooes Wriggles! And yet Br'er DULY's vials of wrath remain tightly corked.

HENRY CLEWS, in his latest financial letter, again refers to conditions in the Philippines, and advances additional argument for their retention by the United States. He says the Philippine Protocol is not explicit as to the disposal to be made of the Philippines; but since that document was signed public opinion in this country has become so widespread and general in favor of their retention by the United States that it seems to be assumed as a foregone conclusion that the President will instruct our Commissioners to the Paris Conference to shape their demands accordingly.

This probability is materially strengthened by the fact that the responsible class of Filipinos are formally and urgently petitioning that the whole group of islands shall be placed under the ownership of the United States. This is an argument which not only appeals directly to our Government, but also, upon international grounds, must carry a very important influence in the councils of the Paris Conference to shape their demands accordingly.

It is also a matter of some significance in this connection that the Czar has deferred the assembling of the International Peace Congress until next month after the conclusion of our peace with Spain. In the face of the pacific nature of the Czar's proclamation it is hardly supposable that he would interfere with the conclusions of the Paris Conference; and if he stands aloof no other intervention is likely to be attempted—the more so as the China question seems to have reached a stage of adjustment between England, Germany and Russia, in which France is likely, in her present perplexed position, to acquiesce. And as the Czar has declared that, in the proposed International Congress, all then accomplished settlements should be accepted as final, it is to be presumed that there would be no subsequent challenging of the final terms we had made with Spain.

Under these conditions there is an important probability that there will be pending in the Philippines a development of American enterprise similar to that which awaits us in the West Indies. The revival of enterprise in the Eastern Archipelago would, however, be of less importance than that in the Antilles for the population is four times larger, the territory is immensely greater and the natural resources are immeasurably richer.

To Receiver and His Deputies Ordered to Answer a Charge of Contempt by Judge Barker.

LOUISVILLE, Ky., Sept. 14.—Tax Receiver James R. Camp and Deputies Barker and Miller have been cited to appear Wednesday morning at 10 o'clock before Criminal Judge Barker and answer a rule for contempt.

Two of Camp's deputies Monday started to seize property belonging to the Allen Co., furniture dealers, on a tax bill for \$420, although an injunction had been obtained by Herman Albin, the dealer's attorney. A restraining order was issued, but the deputies refused to obey it and would have taken the goods to the courthouse for sale had not a check for the amount been given. The check was a countersigned check on court, as it was paid under protest.

The interest is over due. LOUISVILLE, Ky., Sept. 14.—The interest on the Kentucky and Indiana Bridge Co.'s first mortgage bonds is now two days overdue. Payment should have been made on September 11. It is likely that an order for the sale of the bridge will be issued when the United States circuit court of appeals meets at Cincinnati in October and it is possible that the interest is being held back in anticipation of such an order.

THE BUYER'S GUIDE.
A Big Wheat Crop For 1898.

That's our prediction for Mason, Bracken and Robertson counties. We make no pretensions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amount of "horse sense." We know that there will be a good wheat crop next year, because the bulk of the wheat sown this fall will be sown with Empire Drill drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Drill is the only positive feed drill made. It will feed the same quantity of wheat, rye, oats or barley with the same gear. Size of the grain cuts no figure with the Empire. You do not have to sow four or five acres before you know what you are doing as with other drills. The Empire has telescoping steel conductors which never break or choke up as do the old-fashioned rubber conductors. The Empire drag bars are fastened to the top of the boot, five inches higher than on other drills and trash will not choke and stop the Empire.

EMPIRE DRILL.
THE PRICE FIGHTER.

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, saucer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and fed as this part will hold, and in order to sow a large or small quantity of grain per acre you simply put a large or small cog wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of grain per acre—wheat, rye, oats, barley. The Empire has tapering axles like a thimble-screw wagon, and a peculiar wheel, a wheel that we will guarantee will not rub the boxes in five years as on other drills—no, not in twenty-five years. But the best—Buy the Empire and take advantage of its long experience. The factory now offers you the result of a lifetime's study and invention, viz: The Empire Drill. Ask your grandfather about it. Ask any old citizen if he ever heard of an Empire Drill. I can show you an Empire Drill that is 31 years old and still running. The Empire for 48 years has had a National reputation—known and used the world over except Mason county. The Empire is not a cheap drill. It costs the agent a little more than other drills. Perhaps that is why you implement dealers have never sold the Empire Drill here. Empire Drills are being exhibited and sold in Mason county now. I have shown this drill to at least 80 farmers in the last two weeks and every one is enthusiastic in its praise. Call, examine this wonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.

A CRITICAL TIME.
During the Battle of Santiago—Slick or Well, a Rush Night and Day.
The Packers at the Battle of Santiago de Cuba Were All Heroes—Their Heroic Deeds in Getting Ammunition and Rations to the Front Saved the Day.

P. B. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 22, says: "We had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and we kept the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to reach there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrades and myself had the good fortune to lay in a supply of the medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by J. J. Wood & Co., Druggists.

NO RESPECTER OF PERSONS.

Governor Bradley Says Violators of Law Must Be Punished.

Governor Bradley is keeping up the war against carriers of concealed deadly weapons, which he inaugurated when he became governor, believing that pistol carrying is responsible for many of the murders committed in this state.

In this matter the Governor is no respecter of persons. Leo Sketon of Livingston county was recently convicted and fined for carrying a pistol. His friends appealed to the Governor for a pardon, and in the petition emphasized the fact that "Sketon comes from one of the best families in Western Kentucky."

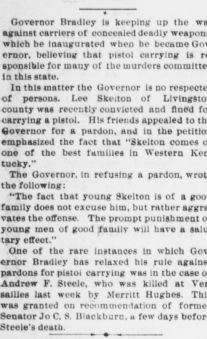

The Governor, in refusing a pardon, wrote the following:

"The fact that young Sketon is of a good family does not excuse him, but rather aggravates the offense. The gravest punishment which a young man of good family will have a salutary effect."

One of the rare instances in which Governor Bradley has relaxed his rule against pardons for pistol carrying was in the case of Andrew F. Steele, who was killed at Versailles last week by Merritt Hughes. This was granted on recommendation of former Senator J. C. Blackburn, a few days before Steele's death.

MOVED AT LAST.

The Fourth Kentucky, with the Mayville Boys, Left Lexington Yesterday.

The Lexington Herald gives particulars of the departure of the Fourth Kentucky, Company B of which is composed largely of Mayville, Mason, Dracken and Greenup boys.

During Monday night fifty-six cars had been placed on tracks near the camp, and early yesterday morning tents were struck, and the men, with baggage, provisions, wagons, mules and horses, were loaded on the cars.

Of the fifty-six cars, there were thirty-two tourist and three tourist-sleepers, four stock cars, eight flat cars for wagons and five box cars.

The train consisted of four sections, with a period of about twenty minutes between the moving of each section.

In the first section were Lieutenant-Colonel Murray, Major Kenyon, the first battalion and the hospital stewards.

In the second section were Major Morrow and the second battalion.

In the third section were Colonel Colon, Major Collier and the third battalion.

In the fourth section went the mules, horses, baggage, etc.

The movement was transferred from the L. and E. over the C. and O. tracks to the Q. and C. Railroad, by which they proceeded to Ammon, Ala., their present destination.

The Herald adds that this Regiment of "mountain boys" has been there about two months and a half, during which time they have shown the people of Lexington that they are not only quiet, well-behaved gentlemen-officers and men alike—but that they are also soldiers. In fact, they were Camp Hamilton with the reputation of being one of the best drilled Regiments there. It was with regret and real sadness that their many Lexington friends see them depart.

THE TRUE SOLDIER.

An Old Veteran Disgusted With Some of the Volunteers of Today.

In a letter to Mr. John A. Fisher of Chillicothe, O., formerly of this city, Colonel Robinson, an old veteran, contrasts the American soldier of the war with the average volunteer of the present time. The Chillicothe Daily Gazette says:

Mr. John A. Fisher of North High street, who is a veteran of both the Mexican and Civil wars, is in receipt of a letter from an old comrade in arms, Mr. B. S. Robinson, a former member of the National Guard, who is now known here. Colonel Robinson expresses a feeling that the National Guard is the National Guard, and not the National Guard of the present time.

Among other things, Colonel Robinson accepts the opportunity to make a few personal observations about the Spanish-American War and freely air his views regarding the National Guard as material for good soldiers.

He rather thinks that they are excellent recruits and make a good showing on dress parade, but when it comes to being denied leather coats to keep them from getting cold, that the National Guard's courage comes out of their finger nails.

"I would not," writes Colonel Robinson, "over a class for a soldier who could not carry all his rations on his back and do his own cooking. Evidently, Colonel Robinson, from his own experience, as he served faithfully in both the Mexican and Civil wars, met and endured hardships, like hundreds and thousands of the old veterans, both hard and smooth, and he must, at this time, some of the faithful incidents of those warlike days, he concludes that the National American spirit of bravery and resignation to circumstances is about twice as much as the old war."

SPAIN LEARNS TOO LATE.

The Herald de Madrid Publishes a Speech by Gen. Prim on Our Vast Military Power.

El Herald de Madrid, in a revelation of feeling, has much now that is amiable to say about the United States. In a recent issue it republished a speech delivered in the Spanish senate in 1862 by Gen. Prim, the famous Spanish general, who had just returned from a visit to the United States, and who was assassinated in the streets of Madrid some time afterward. Gen. Prim, speaking about the military power of the United States, evidenced of which he had witnessed during the early progress of the civil war, and desiring to enlighten his colleagues concerning it, said:

"For a long time it has been believed in Spain, and in fact in all of Europe, that the United States has been a nation of business men, without either military spirit or military elements, and for that reason unable to make war, even within its own confines. Error can now be avoided, however, that such is not the case. The people of the United States are aware that the most powerful nation of Europe is unequal, with immense material of war, to any part of the continent, but it would be a difficult and almost impossible thing for any nation of Europe to transport over 20,000 men to the United States without exposing itself to defeat and everlasting disaster."

"I had the pleasure and honor while in the United States to visit one of the armies of the north. It was the Army of the Potomac, commanded by the illustrious Gen. McClellan, and was composed of over 100,000 men. I am sure the senators that this army, because of the people who composed it, their military spirit, their superb discipline, their voluntary sacrifice and their immense material could be put before any army in the world. And it must not be thought that the bloody battles which are now transpiring in the United States will leave it impotent and helpless. Even if it came to the worst which could befall the country—the separation of the north and the south—the power of the country will not have been diminished. For this reason I ask and counsel the statesmen of my country to ever watchful of the United States."

El Herald's publication comes rather late to be of benefit to Spain. Had Gen. Prim's sensible and prophetic speech been published earlier it would doubtless have gone unheeded, but it would not have had the effect of aggravating open wounds.

SHOULD KEEP THEM ALL.

Senator Cannon, of Utah, Expresses His Views Regarding Cuba and the Philippines.

Senator Frank Cannon, of Utah, frankly announces his sympathy with that policy in the far east which would not haul down for Spain's benefit the United States flag. He is in favor of the United States' latest conquests in the Philippines. He said that in his judgment it would have been well to compel Spain, as a condition of peace, to relinquish her sovereignty not over Cuba and Puerto Rico, but also over her chief colony in the far east. "We acquire at once," he added, "the island of Puerto Rico, and at the very threshold of the establishment of a government in Cuba that island will come into our possession. By the time things are settled there the island will have to become so far Americanized that the first act of free government there will be to attach itself to the United States. We will take the Philippines, and it is right that we should do so. It is the manifest destiny of our government to develop a great power on the Pacific."

A GOOD SUGGESTION.

Hospital and Medical as well as Military Records of Soldiers to be Kept for Future Reference.

A special to the Tribune from Washington says: The suggestion that the hospital and medical as well as military records of all officers and soldiers enlisted in the war against Spain be carefully made and preserved as a part of the permanent records of the war department in order to facilitate the adjudication and payment of future claims for pensions, it appears is being favorably considered by the higher officials of the department. The plan suggested is so practical and easy of execution at a moderate expense of time, that it is withal one from which both the government and claimants for pensions will derive such benefit, that it seems strange nobody ever proposed it long ago. There appears now to be a fair probability that it will be adopted and carried out, as no legislation will be needed to set it in motion.

Compulsory Vaccination in Japan.

By an act of parliament passed in 1896, and signed immediately by the emperor, a law was passed that in five years was made compulsory upon every Japanese, no matter what his or her station in life may be. Vaccination is done with much from calves only, which is procured from vaccine establishments owned and controlled by the government. Any attempt to evade vaccination at the stated periods is made a serious offense and is treated as a grave delinquency against the state. The result is that smallpox, once the curse of the islands constituting the realm of Japan, is now all but unknown.
